

## Berkeley Community Play Group

**Community Parents** is an exciting new opportunity for parents and children to come together for play dates and activities. Parents and children get a chance to socialize, play, have fun and get to know other families in their area. We welcome all Alameda County families with a child 0-5 who has a developmental delay, disability, special health care need or social-emotional concern. Playgroups are organized by a local community parent working with FRN.
